SYNCHRONOUS IN 3

YOUR FIRST CHOICE FOR ACOUSTIC BRITISH & CANADIAN 70-90S MUSIC

With decades of professional musical experience, the three individuals powering Synchronous in 3 (Syn3) share a few crucial components: respect for their audiences, venue management and of course, the music. As concert goers ourselves, we have high standards for the music and higher standards for our audience's experience. Reproducing the sound quality, performance experience and professionalism all parties demand is our singular priority.

Focusing mostly on UK & Canadian bands of the 70s - 90's, Syn3 occupies a unique niche in the Triangle. While there are many ensembles playing this music, most offer only radio hits. Syn3 sees things differently. Audiences embrace bands for many reasons, and resonating with certain messages and memories are only the beginning. For most, these messages (whatever they might be) lie beyond a radio hit. This is why most follow bands, not songs. Syn3 intersperses those critical, yet seldom-played-in-the-Triangle works throughout our set list. Our audiences know those pieces and know that only Syn3 plays them live.

With the growing contingent of British ex-patriots settling in the Triangle, Syn3 is unique in responding to this demographic. Our singer and bassist, Kate Annett-Hitchcock, was born, raised and educated in England. She brings a unique view of the 80 & 90s musical scene we in the US never heard. She danced to this music then and so will her fellow Triangle-based British compatriots at your venue.

Syn3 looks forward to bringing our network of 70s - 90s UK and US music supporters to your venue!
